### Bio

Lynn Scheurell is a nationally-recognized entrepreneurial mentor, spiritual teacher, business catalyst, author and sought after marketing expert and 'visioneer' for what's possible through being a conscious business owner. As an authority on getting dramatic positive results quickly, she helps people gain clarity around their life purpose, as well as how to break their inertia to step into their true potential as a daily reality. Her focus is in working with energy-sensitive people who want to honor their natural gifts and help others through life transformation, and who use the process of becoming an entrepreneur as a vehicle for personal development.

### Speaking Style

As a natural teacher and facilitator, Lynn's style is personal, informal and focuses on the participants getting practical information they can use right away. Her opinion is that all the insights in the world are meaningless if one doesn't know how to apply them.

If you would like to invite and host Lynn to come to your local speaking event, please email or call to discuss the needs of your company, group or organization.

### Speaking Topics

One of Lynn's unique qualities is to 'dance' with the energy that shows up in an interview situation. She works from the point of view of the person asking the question, and then brings that insight to a level of universal understanding. There are a variety of topics that Lynn speaks on fluently both on radio and in person; following are some of the most popular.

- True Clarity: How to Know What You Know
